

Like to learn how truck and trailer technology can help you avoid experiencing a rollover?

The TR Rollover Prevention & Technology Training Course will help you do that.

LEARN.

WATCH.

DRIVE.

Around a third of the heavy vehicle crashes in New Zealand involve a rollover. More than half of these involve a truck and trailer.

Rollovers are typically caused by:

- Excess Speed.
- Poor Vehicle Stability.
- Shifting loads.

Our Rollover Prevention & technology course is the only one of its kind in New Zealand. Nowhere else can you get both the theory and practical experience of heavy vehicle stability, control, and technology dynamics.

This is an in-cab, hands-on learning experience. This course has been developed to give drivers an awareness of the dynamics and technology at work during cornering, braking, emergency steering manoeuvres and in the event of a jack knife.

Scan or click the QR Code to see some of what you can expect to experience on the course.

I'd recommend it to anybody, it doesn't matter if you're an old truck driver or a new truck driver, I'd definitely come and do it because it gives you quite a good perspective of the fact that you don't know when stuff is going to go wrong and how these systems are helping us do our jobs safer and better.

- Nick Burgess, Driver Fulton Hogan

BRIDGESTONE
Solutions for your journey

COURSE NUMBERS AND PRICING

- Cost \$695 + GST per person.
- Training for groups up to a maximum of 8 trainees.

COURSE DURATION AND UNIT STANDARDS

- Theory session followed by 'hands on experience' from the driver's seat.
- This is a ½ day course, there are AM and PM sessions.
- Non-unit standard.

PREREQUISITES

- To experience the practical from the driver's seat you must hold a full New Zealand Class 5 licence, please bring it with you on the day.
- Class 2 & 4 drivers are most welcome to attend with the practical component completed from the passenger seat.

WHAT TO EXPECT ON THE DAY

- The theory portion is conducted in a classroom with up to 8 people.
- The practical portion will include coaching in-cab. You will need hard covered shoes and please dress appropriately for the weather on the day.

WHAT HAPPENS AFTER YOU FINISH THE COURSE

- We will issue your electronic certificate of attendance.
