## ALCOA® Wheels 81U562DB

22.5 x 11.75 | Dura-Bright® EVO Finish  
| No Hand Holes | Aerodynamic Design

### Key Features

- Part Number: 81U562DB
- Size: 22.5 x 11.75
- Offset: 0 mm
- Bolt Hole Diameter: 26 mm
- Weight: 19.9 kg
- Max Load Capacity: 5000 kg
- Finish: Dura-Bright® EVO – polished, corrosion-resistant, and easy to clean

### Benefits

- Lightweight Strength: Made from Alcoa's proprietary MagnaForce® alloy, 17% stronger than standard aluminum.
- Low Maintenance: Dura-Bright® EVO surface resists corrosion and road salts.
- Fuel Efficiency: Reduced weight contributes to lower fuel consumption and increased payload capacity.
- Long-Term Durability: One-piece forged aluminum construction

### Aerodynamic Innovation

- No Hand Holes: Sleek, solid design improves airflow and reduces drag.
- Modern Styling: Clean face offers a bold, contemporary look for fleets.

### Applications

Ideal for heavy transport trailers fitted with ROR or BPW wide track axles, improving fleet upgrades where performance, style, and maintenance efficiency matter.
